INDEPENDENT AUDITOR'S REPORT

To the Stockholder
JK Securities, Inc.
Hinsdale, Illinois

We have audited the accompanying statement of financial condition of JK Securities, Inc. as of December 31, 2002, that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of JK Securities, Inc. as of December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

JK SECURITIES, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 1. Nature of Business and Significant Accounting Policies

Nature of business: JK Securities, Inc. (the Company) is an Illinois subchapter S corporation established on September 7, 2001. The Company is registered as a broker-dealer under the Securities Exchange Act of 1934 and is a member of the National Association of Securities Dealers, Inc. (NASD). The Company commenced trading operations on May 1, 2002. The Company's primary operation is proprietary trading of municipal bond securities.

The Company operates under the provisions of Paragraph (k)(2)(ii) of rule 15c3-3 of the Securities Exchange Act of 1934 and, accordingly, is exempt from the remaining provisions of that rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer, and promptly transmit all customer funds and securities to the clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

The following is a summary of the Company's significant accounting policies:

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue recognition and securities owned: Proprietary securities transactions are recorded on the trade date as if they had settled. Profit and loss arising from all securities transactions entered into for the account of the Company are recorded on a trade-date basis.

Securities owned, consisting of municipal bond securities, are valued at a quoted market value.

Fair value of financial instruments: All financial instruments are carried at amounts that approximate estimated fair value.

Income taxes: The Company has elected to be an "S corporation" under provisions of the Internal Revenue Code. Under those provisions, the Company does not pay Federal income taxes on its taxable income. The stockholder is liable for individual income taxes on the Company's taxable income.

Note 2. Receivable From and Payable to Broker

The Company clears its proprietary transactions through another broker-dealer. The amounts represented on the statement of financial condition relate to the aforementioned transactions. The amount payable to clearing broker is collateralized by securities owned by the Company. Pursuant to the clearing agreement with the Company's broker, the Company can borrow up to 100 percent of the value of the securities owned by the Company.

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 3. Financial Instruments with Off-Balance-Sheet Risk and Concentration of Credit Risk

Securities transactions are introduced to and cleared through a clearing broker. Under the terms of its clearing agreement, the Company is required to guarantee the performance in meeting contracted obligations. In conjunction with the clearing broker, the Company seeks to control the risks of activities and is required to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines are monitored daily and, pursuant to such guidelines, the Company may be required to deposit additional collateral or reduce positions when necessary.

Securities owned may be used as collateral by the clearing broker for amounts owed to such clearing broker.

The clearing and depository operations for the Company's security transactions are performed by its clearing broker pursuant to a clearance agreement. At December 31, 2002, the receivable from broker, securities, clearing deposit and payable to broker reflected on the statement of financial condition are positions with this clearing broker. The Company consistently monitors the credit worthiness of the clearing broker to mitigate the Company's exposure to credit risk.

The Company is engaged in various trading and brokerage activities whose counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

Market risk arises due to fluctuations in interest rates and market prices that may result in changes in the values of trading instruments. The Company manages its exposure to market risk resulting from trading activities through its risk management function. Risk reports are produced and reviewed daily by management to mitigate market risk.

Note 4. Net Capital Requirements

The Company is a broker-dealer subject to the SEC's Uniform Net Capital Rule (SEC rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. As a result of the Company being in its first year of operation, the ratio shall not exceed 8 to 1. The Company will be operating under this requirement to May 1, 2003. At December 31, 2002, the Company had net capital of \$724,621, which was \$624,621 in excess of its required net capital of \$100,000. The Company's net capital ratio was 0.02 to 1 at December 31, 2002.
